

## ALMATEC F-SERIES

Special pumps for paint and glue supply-systems

| Code    | Material                                      |            |             | Pump size |      |
|---------|---|------------|-------------|-----------|------|
|         | Housing                                       | Diaphragms | Ball valves | F 10      | F 20 |
| E       | PE conductive                                 | EPDM       | SS          |           |      |
| T       | PE conductive                                 | PTFE       | SS          |           |      |
| Options | Back sucking system, hand operated (code R 1) |            |             | -         |      |
|         | Back sucking system, pneumatical (code R 2)   |            |             | -         |      |
|         | Pneumatic back and supply system (code R 3)   |            |             | -         |      |

**ALMATEC AD 6**  
Laboratory and submersible pump

| Code | Connection kits for AD 6  | Material                     |  |
|------|---|------------------------------|--|
| AS6P | Connection kit, sample pulling, consisting of:<br>Inlet strainer<br>Hose connection, air inlet, for hose 6/4<br>Hose connection, air exhaust, for hose 10/8<br>Hose connection, discharge port, for hose 10/8 | PTFE<br>PVDF<br>PVDF<br>PVDF |  |
| AS6L | Connection kit, laboratory, consisting of:<br>Hose connection, suction port, for hose 10/8<br>Hose connection, discharge port, for hose 10/8<br>Hose connection, air inlet, for hose 6/4                      | PVDF<br>PVDF<br>PVDF         |  |

**ALMATEC CUBUS**  
Pneumatic diaphragm pumps for OEM-applications

| Code | Material |            |             | Pump size |          |
|------|----------|------------|-------------|-----------|----------|
|      | Housing  | Diaphragms | Ball valves | CUBUS 15  | CUBUS 25 |
| EEE  | PE       | EPDM       | EPDM        |           |          |
| ETT  | PE       | PTFE       | PTFE        |           |          |
